

Liquid Fertilizer

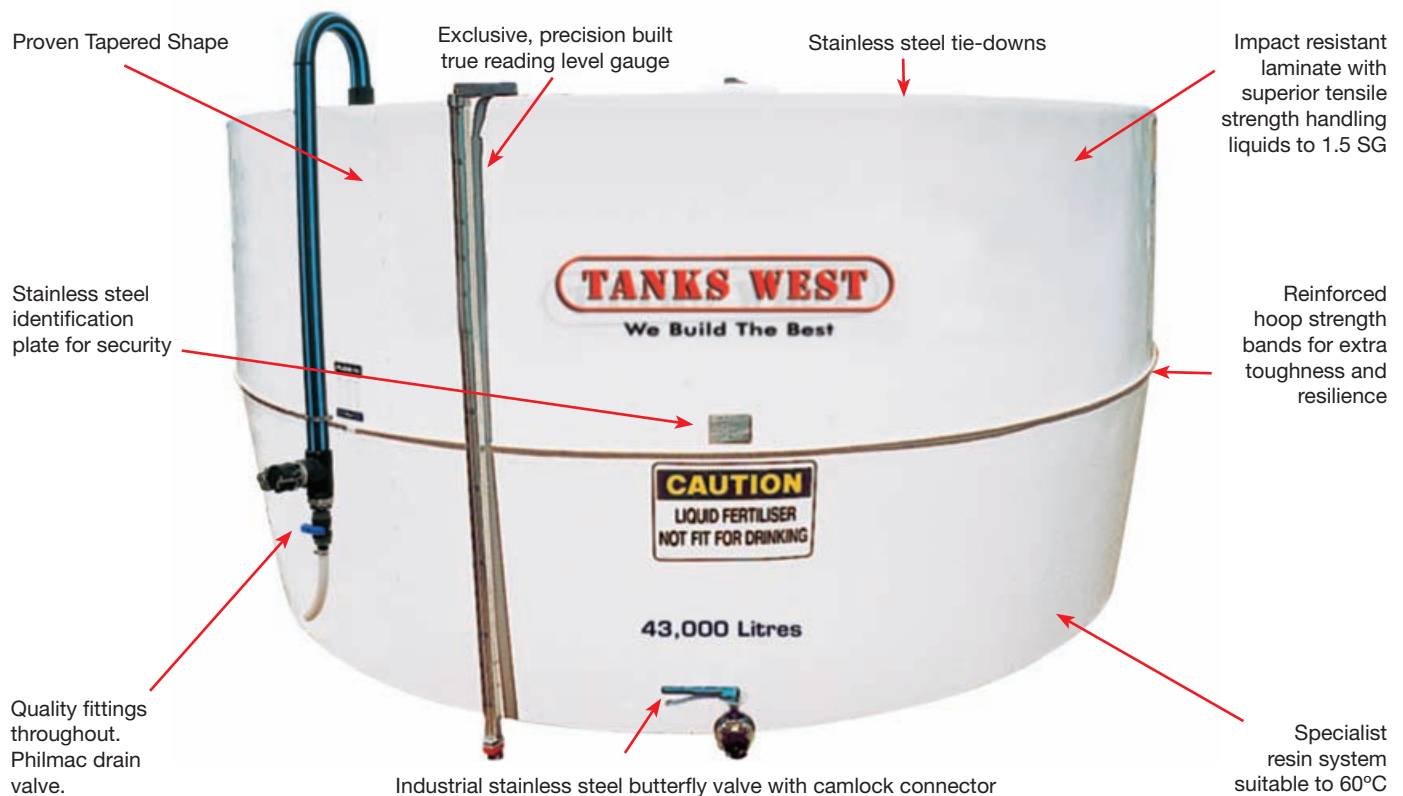

STORAGE • TRANSPORT • CARTAGE

THE BEST SOLUTIONS FOR YOUR LIQUID FERTILIZER

THE TANK

Tanks West, using their extensive manufacturing experience, have refined liquid fertilizer storage tanks incorporating the latest in resin and laminate technology. The tank features superior chemical compatibility, impact resistance and tensile strength, exceeding the requirements of modern liquid fertilizers. Sizes available 23,000 Litre (30T), 43,000 Litre (50T) and 60,000 Litre (80T).

Don't be left behind, go with the improved technology for safe secure storage.

WHAT SETS US APART

Superior Quality Fittings. All fittings are corrosion resistant and designed to last.

Corrosion Resistant Resin System. A resin system that will handle not only Flexi-N and UAN but will also meet the challenges of the NPK and sulphur blends of the future.

Level Gauge. Exclusive to Tanks West, the liquidator gauge attaches firmly to the outside of the tank, enabling an accurate reading at a glance.

Fast Delivery. Quick order turn-around made possible by a large and efficient delivery fleet.

WA Owned and Made. Western Australian Manufacturer who specialises in storage tanks and has the experience and proven reputation that allows you to buy with confidence.

TRANSPORTER

The Tanks West liquid fertilizer transport tank is available in 7000, 10000 and 12500 litre capacities. It boasts a broad range of features including a revolutionary floating baffle which limits surge; Stainless steel ladders, lid and butterfly valve to avoid corrosion (ladders on 10,000 & 12,500 only); Full length legs and impact protection system to make loading and unloading a breeze. The Tanks West Transporter has been built specifically for your liquid fertilizer transfer and cartage requirements.

WHAT THE GROWERS SAY...

“ ...Tanks West have always supplied a quality product with back-up service. The choice was easy: they're a better tank ”
- **RICHARD FIELD Yerecoin**

“ ...The Tanks West storage tanks I put on my property proved ideal because they can handle a range of fertilizers: from the current blends to the new lines of phosphorous based fertilizers coming onto the market. Giving greater flexibility and taking away the need to upgrade in the future...”
- **WAYNE SMART Northam**

“ ...like the design of the Tank West liquid fertilizer storage tanks, and the delivery and set-up was very professional ”
- **ETICUP GRAZING Co. Broomehill**

DELIVERY

Tanks West's transport and delivery service is first class. Operating a fleet of trucks ensures prompt on-farm delivery and quick order turnarounds. You will not only be dealing with a professional driver but someone trained in the fit-out and installation of fertilizer tanks to required specifications.

At the end of the day, when you have your tank delivered by Tanks West, you can be assured that you will receive safe and secure storage of your precious fertilizer.
