

Super 60

THE 60,000 LITRE SUPER TANK - EXCLUSIVE TO TANKS WEST

This new addition to the range of Tanks West products is a large capacity tank manufactured from FRP (Fibre Reinforced Plastic) using new mechanised construction techniques in composite engineering. This super large volume capacity tank of 60,000 litres is suitable for a wide number of applications in the Rural, Industrial and Commercial markets. The tank can be fitted with a wide range of threaded or flanged fittings to suit your specific application.

RURAL

Liquid Fertilizer Storage

- Specified for Liquid Fertilizers
- Large Volume filling station for on farm storage

Water Storage

- Large capacity single unit for all types of water

COMMERCIAL

Depot Storage

- Suitable for water/fertilizer/chemical storage
- Space saving capacity - economical
- Reduced piping and bund costs

INDUSTRIAL

- Additional height an advantage for waste water treatment allowing greater flocculating distances
