## THE BEST SOLUTION FOR WATER STORAGE & TRANSPORT

Western Australia's largest manufacturer of FRP tanks, offering a permanent solution to all your water storage and transport needs.

### WATER STORAGE TANKS

#### A FEW GOOD REASONS TO BUY A TANKS WEST TANK

### RURAL & DOMESTIC STORAGE

#### COOL, HYGIENIC, TASTE-FREE WATER

Specially designed for drinking water, these tanks are capable of hygienically storing a range of liquids. Our uniquely formulated materials give a smooth, taint free and algae resistant surface inside the tank, complying with the Australian Standard AS 4020 for potable water. No more rust, no more leaching, ensures taste-free water.

#### DURABILITY AND GOOD LOOKS

The proven ability of FRP (Fibre Reinforced Plastic) to retain strength and flexibility is enhanced by the UV resistant external gelcoat. Available in a choice of colours to blend with the environment and enhance your property.

#### MOULDED FOR STRENGTH & FLEXIBILITY

The tanks are made from two moulded halves and joined internally at the centre to provide additional hoop strength. The tanks are lightweight, but strong with flexibility to withstand impact and ground movement. Relocation becomes easy once the tank is empty.

#### EASY TO INSTALL AND READY TO USE

Ground installation requires minimal preparation, the tanks can be situated on any smooth level site. Ideal for tank stands, they will not rust or corrode and post curing means they are ready for immediate use.

#### STANDARD COLOURS

- HAWAIIAN CREAM
- MIST GREEN
- WHITE

\*Colour matching is approximate. Other colours available.

Rural Storage

Three tanks joined together for water storage

### TRANSPORTER TANKS

IDEAL FOR WATER CARTING TANKS AND FIRE FIGHTING EQUIPMENT.

The ultimate in Water Transport, these award winning tanks feature a revolutionary baffle system which limits surge sideways as well as down the full length of the tank. Ideally suited for mounting on flatbeds or tipping bodies. The tanks are fully draining and incorporate many user friendly features.

### COMMERCIAL & INDUSTRIAL STORAGE

The robust nature of Tanks West products makes them ideal for use in commercial and mining applications. High corrosion resistance and good thermal tolerance make them ideal for saline and process water even at elevated temperature.

They can be fitted with a wide variety of flanges and valves to suit individual requirements including fire service and waste water treatment.

Industrial Storage

Mining

#### ALSO AVAILABLE

- Pumps, Brass Fittings, Stainless Steel Fittings, Ball & Gate Valves, Float Valves, Level Gauges, Water Diverters, Leaf Eaters.
